NOTICE

HARFORD COUNTY LICENSED TOWERS **Application of Maximum Allowable Towing Rates**

On March 22, 2006 the Harford County Towing Appeals Board approved new maximum allowable rates that may be charged by a licensed towing company when providing towing services for a law enforcement request. The new rates are effective April 5, 2006.

The Harford County Sheriff's Office and the Department of Inspections, Licenses and Permits, has the authority to verify application of these tow rates as well as the operation of any licensed tow company through the established licensing program. Please note that all licensed tow companies should establish appropriate fees for services rendered based upon the current maximum allowable tow rates and the individual situation. These maximum allowable tow rates are guidelines and cannot be exceeded in the amount listed for each category. However, please note that the items listed in each category are the only fees that may be charged when providing services for a law enforcement agency requested tow.

Fees such as fuel surcharges and miscellaneous administrative charges that are not on the maximum allowable towing rates list are not applicable when servicing a law enforcement agency request.

It is also recognized that the current fee schedule is not all inclusive for every situation. Should a situation arise whereby the licensed tow company feels that additional charges outside of the set guidelines are applicable and appropriate, Section 1, subsection d, of the current rules and regulations specifically allow for the tow company and the vehicle owner to enter into a signed agreement establishing the fee for a service that may differ from that established in the current fee schedule. Please be advised that any misapplication of fees may result in the issuance of a Deficiency Notice by the Harford County Sheriff's Office with applicable disciplinary action taken.

Questions regarding application of fees may be directed to DFC Jeff Petty, Harford County Sheriff's Office (410) 692-7874, or Mr. Richard Truitt, Chief of Building Services Division (410) 638-3366.

**HARFORD COUNTY
